

Ahaa ResiMouse

Fluid-resistant mouse

by
Kondator

ResiMouse silicone mouse,
part no 440-4M5W

Perfect for health care or industrial use.

4-button optical silicone mouse with "button-scroll" for tough environments. Hermetically sealed in high quality silicone giving unique properties which withstand both water and soap solutions. Also resistant towards disinfection agents, alcohol and petroleum products.

A natural choice when demands are placed on a clinically clean work environment within laboratories and health care. Also perfect for "the workshop floor" within industries where even dirty oil products can be easily cleaned using petrol.

Fluid-resistant mouse...
use a keyboard with the same
properties. Ahaa Flexfold Midi
Part no. 441-426U.
